

Stay up to date!

The 15th Round of Exploratory Blocks kicked off the auction schedule for 2018. The intense oil and gas sector schedule has shaken the market in Rio de Janeiro with the public sessions held on March 29th. The bidding round awarded offshore blocks to oil companies for a total signature bonus of more than BRL 8 billion, the largest in the history of this kind of bidding in Brazil. With an average premium of 621%, investments exceed R\$ 1 billion. More information at www.avancarparcerias.gov.br

Events in March

5th PPI Council Meeting

On March 19th, the PPI Board qualified 31 new projects: 24 power transmission lines lots and 7 port terminals. The new projects are expected to leverage more than R\$ 10 billion in investments.

National Logistics Plan – PNL

The Brazilian logistics plan is a tool developed to provide information about different scenarios and strategies to optimize investments in infrastructure by 2025. The document was submitted to public consultation through which many interested parties could contribute. Learn more at www.epl.gov.br.

LOTEx

The Federal Court of Auditors approved the LOTEx concession model: a 15-year term project on lotteries with a minimum grant of R\$ 542.1 million. The Bidding Documents will be released soon, as the auction is scheduled for June 2018.

Airports

PPI held its 1st Meeting with Airport Sector stakeholders. The goal was to listen and gather suggestions for the 5th round of airport concessions, coming soon in 2018. Representatives from all concessionaires who attended the 1st, 2nd, 3rd and 4th rounds were present at the meeting.

Keep an eye out!

On April 10th, Avançar Partnerships will hold the 2nd Meeting with the Oil and Gas Industry to assess the results of the 15th Round of Exploratory Blocks, from the perspective of the participating companies. In addition, next Friday, April 4th, the 2nd auction in 2018 of the Federal Government's Concession Program will be held in the port sector. The areas earmarked for the costly assignment of Liquefied Petroleum Gas (LPG) Terminals at the Port of Miramar are: MIR01, BEL05 and BEL06. The Terminals are essential for the distribution chain of LPG to the Northern region of Brazil. Two existing terminals will be auctioned and a new one will be built. The estimated total investment is R\$ 168 million.

BEL 05

Area: 33.8 thousand m²;
Investments: R\$ 50.9 mi
Adaptation of Capacity:
approximately 86.4
thousand tons per year.

BEL 06

Area: 35.5 thousand m²;
Investments: R\$ 51.5 mi;
Adaptation of Capacity:
approximately 82.8
thousand tons per year.

MIR 01

Investments: R\$ 65.6 mi

It is a 25.4 thousand m²
greenfield area where the
new terminal will be built.
